# TITAN OPTIONS

## PRODUCT GUIDE

For IB use only. Please do not share this Product Guide in full with clients. You may share relevant product details with clients to help them understand the account opening process and trading features.

*The information in this guide is accurate as of 30 September 2026 and may be subject to change. Please refer to the latest terms and conditions before sharing the product information with clients.*

# Titan Options Overview

- Eligible clients can open a Titan Options account through the Client Cabinet and access the trading portal from there.
- Clients can trade onTitan Options using the two modes provided by the new TS platform - Turbo and High/Low.
- The client selects an asset, a direction (High or Low), an investment amount, and an expiry time. When the trade expires, the platform compares the closing price to the entry price (also called the strike price).
- In the Money: If the price at expiry moves in the direction the client predicted, the client receives their investment back plus the quoted payout.
- Out of the Money: If the price at expiry moves in the opposite direction, the client loses the full amount invested.
- At the Money: If the strike price is equal to the final price before expiration, the contract will settle as a 'push', and the original investment will be returned without any additional payout.
- Neither trade type involves owning the underlying asset. The client is taking a position on price direction only, for a fixed duration, with a predetermined outcome either way.

## Key Product Benefits

- Simple Trading Structure - Trade with no spreads, commissions, or required margins. Just clear and simple trade conditions
- Review the Payout Before Trading - Review your fixed payout, risk and expiry time so you can have confidence with all your trades
- Direct Access from the Client Cabinet - Access Titan Options smoothly from your Client Cabinet.
- Try the Platform in Demo Mode - Before trading with real funds, you can explore the platform and test your strategies using risk-free demo mode.

| **Tesla** | Stocks | 09:30–15:00/16:00 |

** Trading hours are subject to change depending on our liquidity providers' trade sessions.*

*These do not remain consistent all year round, there can be some changes to the open and/or close trade sessions.*

# Turbo Trading Mode

- The user selects a *duration* (e.g. 30s), and every trade has that exact same duration.
- But since expiry is entry-anchored, no two trades can share the same expiry time. For example, open two turbo trades with 15s at 04:28:01 and 04:28:03. First trade will expire at 04:28:16 and second trade will expire at 04:28:18.

*EUR/USD, EUR/JPY, GBP/USD, EUR/JPY and all OTC symbols:*

- 10s, 15s, 20s, 25s, 30s, 35s, 40s, 45s, 50s, 55s

*All the other remaining symbols:*

- 15s, 30s, 35s, 40s, 45s, 50s, 55s

# High/Low Trading Mode

- The user selects an *expiry time* (a fixed clock point), not a duration.
- This means multiple trades can share the same expiry, but since each trade's actual duration depends on when it was entered, those trades won't all have the same duration.
- For example, open two 10 mins trades at 04:28:00 and 04:30:00, both will have an expiry of 04:38:00. Regardless of the second trade opening 2 mins after the first one trade was opened. Trades are anchored at a fixed clock time, and this is why clients will always see the clock time next to each time interval listed in the dropdown options in a High/Low account setting.

# Trading Conditions

- Min stake amount for both trading methods - 300 JPY*
- Maximum number of opened trades across both trading methods - 15 positions
- Maximum investment amount for Turbo account - 5000 JPY *

- Maximum investment amount for default high/low game - 200,000 JPY*

**Varies depending on the product and applicable conditions.*

# Payout Structure

## Turbo Products:

Payout rates remain between 65% to 90% range.

## High/Low Products:

Payout rates remain between 60% to 80% range.

# Eligibility and Country Restrictions

Clients are restricted from the following countries for options trading:

1. Israel
2. Turkey
3. Canada
4. Singapore
5. Belgium
6. Australia
7. Ethiopia
8. Iran

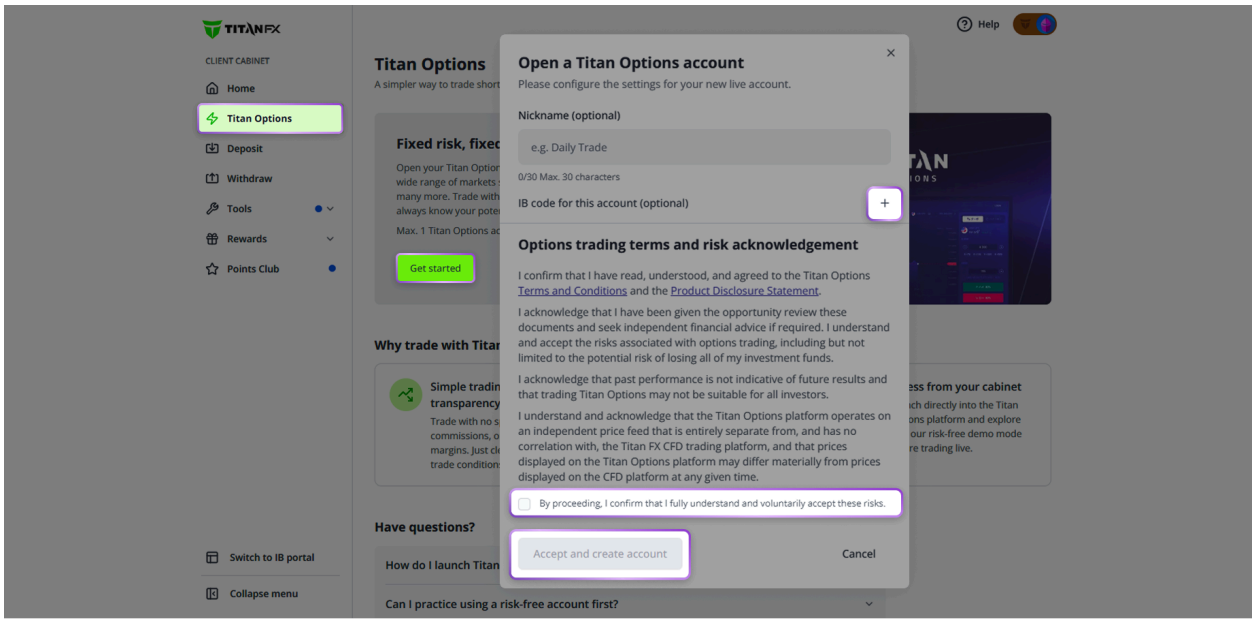
Availability is subject to eligibility checks and applicable requirements.

# Client Registration and Onboarding

Client Registration Steps:

1. The client logs in to the Client Cabinet.
2. They open the Titan Options page and click Get Started.
3. On the Open Titan Options Account page, they link their IB number.
4. They agree to the Terms and Conditions and click Create Account.
5. A confirmation screen appears, and an email is sent to their registered address.



Registration and Onboarding are subject to each country's KYC requirements.

Account Funding and Withdrawals

- Crypto is available in all regions.
- Availability of card payments (Visa/Mastercard) and Peska varies by region.

For details, please contact the partner's support team.

# How to Opt in to the Titan Options Affiliate Program

---

1. Review the Titan Options Affiliate Program Opt-in Agreement.
2. To opt in to the Titan Options Affiliate Program, please submit the Consent Form to accept the terms of the Agreement. Please make sure to select "Send me a copy of my responses via email" before submitting the form.
3. Once your opt-in is confirmed, you will receive a confirmation email. If you do not receive it, please contact us (partners@titanfx.com) for assistance.
4. You may begin referring clients to Titan Options after receiving the confirmation email.

# Titan Option Affiliate CPA Structure

| **Tier** | CPA | Monthly qualified acquisitions | Potential earnings example |
|---|---|---|---|
| **Tier 1** | 15,000 JPY / trader (≈ 100 USD) | 1–25 traders/month | 5 traders USD 500 (JPY 75,000) |
| **Tier 2** | 25,000 JPY (≈ 160 USD) | 26–50 traders/month | 30 traders~USD 4,800 (JPY 750,000) |
| **Tier 3** | 35,000 JPY (≈ 230 USD) | 51+ traders/month | 60 traders~USD 13,800 (JPY 2,100,000) |
| **Bespoke** | Negotiated for proven channel | Negotiated for proven channel | |

*Titan Option Affiliate CPA rates shown above are current as of 30 September 2026. As Titan Options is in its soft launch phase, these rates may change.

*CPA commissions are calculated in Japanese yen. If your IB account is denominated in another currency, the amount credited to your account will be converted at the exchange rate applicable at the time of payment.

# CPA Qualification Requirements

The CPA Fee is a one-off payment for each Qualified Acquisition. The applicable CPA rate is determined by the number of Qualified Acquisitions attributed to the Options Affiliate during the applicable calendar month.

To qualify as a Qualified Acquisition, all of the following requirements must be met:

- The Customer has been validly attributed to the Affiliate in accordance with the applicable Agreement.
- The Customer achieves a Net Deposit of at least USD 250 or JPY 40,000 within 30 days of opening the applicable Options Account.
- The Customer completes at least 10 Qualified Options Trades within 30 days of opening the applicable Options Account.
- The Customer successfully completes the applicable 30-day Clawback Period.
- The acquisition passes Titan FX's validation.

Please refer to the Titan Options Affiliate Program Opt-in Agreement for other terms and conditions.
