Why Choose the Titan FX Social App Now?

Reason

1

New Features

SSO and Multi-Account functionality have made the app more user-friendly

Reason

2

Enhanced Support

In addition to Titan FX's renowned 24/7/365 support, our partner company has strengthened its global support capabilities

Reason

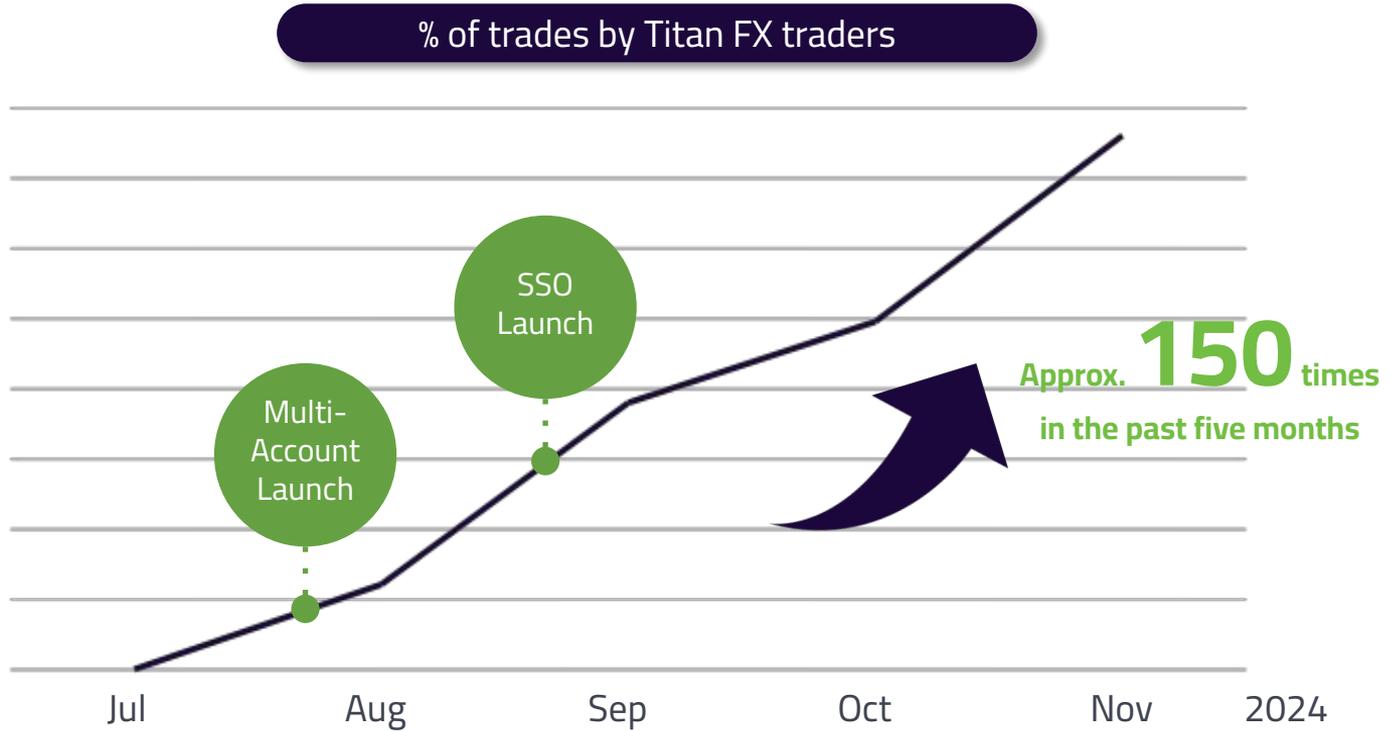

3

Faster Development Turnaround

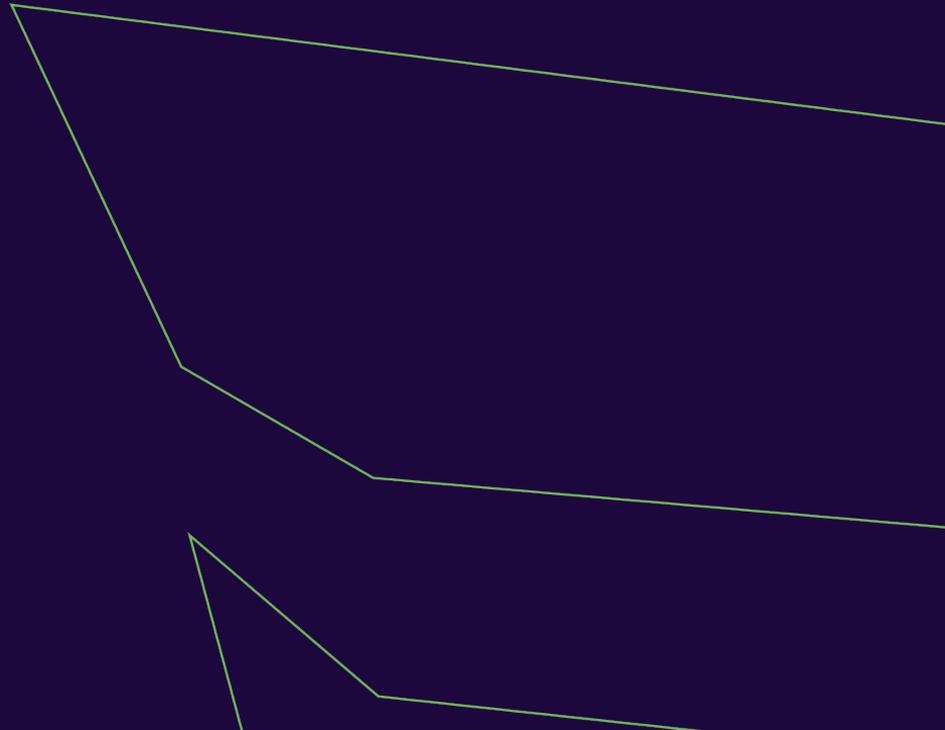

Feature requests are now implemented more swiftly, significantly shortening development timelines

01 Rapidly Expanding Usage

SECTION 02

Single Sign-On (SSO)

02 Changes Introduced with SSO

Before

Previously, users could create accounts and log in to the TFX Social app with any email address, regardless of whether it was registered with Titan FX.

After SSO

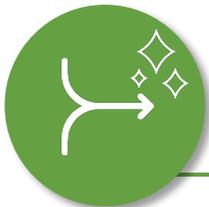

Users can now log in to the TFX Social app **only with the email address and password registered with Titan FX.**

For existing Titan FX traders, app registration is no longer required.

Quick Start without Registration & Time-Saving

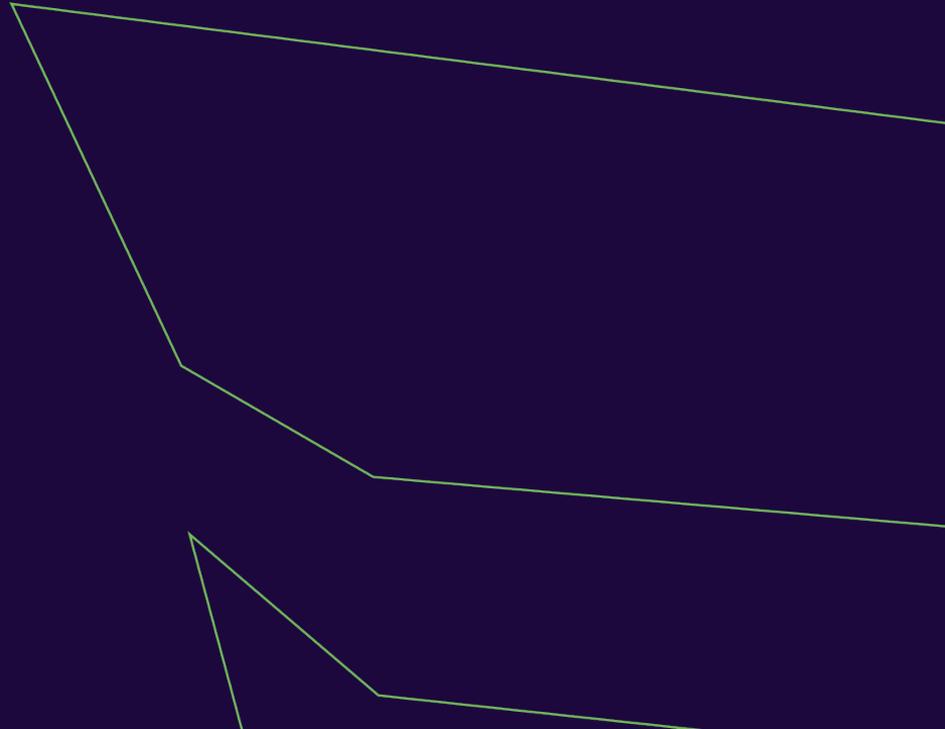

Unified login credentials for both the client cabinet and the app.

Streamlined Information Management

SECTION 03

Multi-Account Functionality

03 What is Multi-Account Functionality?

Before

Only one Titan FX trading account could be linked to a single email address
= Only one TFX Social app account could be created with that email address

To manage multiple trading accounts, users had to create **separate TFX Social app accounts with different email addresses**

03 What is Multi-Account Functionality?

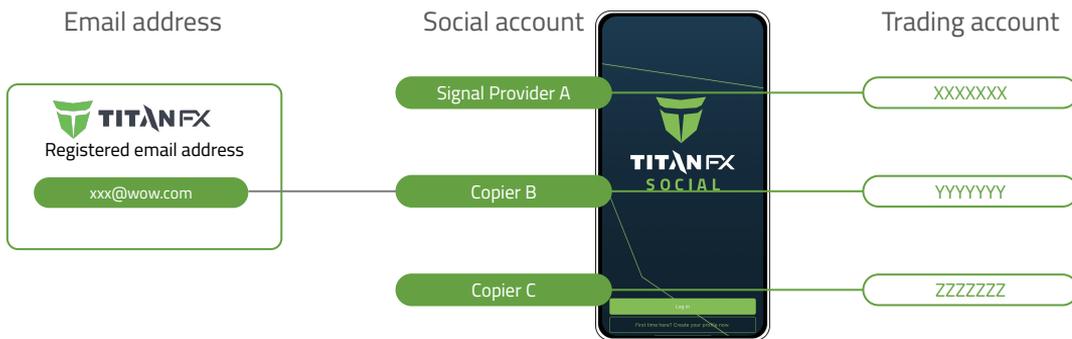

With Multi-Account

Multiple Titan FX trading accounts can now be linked to a single email address

Users can seamlessly switch between multiple trading accounts within a single TFX Social app account

No need to create separate TFX Social app accounts with different email addresses
Efficient management of multiple trading accounts is now possible

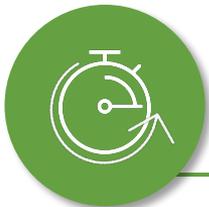

Benefits of Multi-Account Functionality

Manage multiple trading accounts with just one login.

No need to log in/out to switch accounts - you never miss a trading opportunity

One account per user.

With SSO, login time is significantly reduced, streamlining account management
